

ZOE MEYERS

B I O

Hello, my name is Zoe Meyers. I will be 16 years old in May. I currently work as a tutor after school and on the weekends. I tutor students pre-k thru 9th grade. I look forward to helping your family during this difficult time. I am available to tutor your student via Facetime, Zoom, telephone, email or text. Last summer, I was chosen to participate in the Arizona State University Barrett Summer Scholars program.

Due to my excellent GPA, I was able to attend the program free of charge. I am very studious, observant, and ready to take on anything. I believe the Barrett Summer Scholars experience helped me to develop my confidence and communications skills. The careers that I am interested in are medicine or engineering. I am very interested in the medical field because of my interest in biology. I have always had a passion for drawing, building, and design. Some of my best attributes are that I am a fast learner, curious, and exceedingly optimistic. I hope to share these interests with your child and tap into their hidden potential.

I have been playing golf since I was three years old. I was a participant in the Troon Golf & Country Club junior golf program. I also participated in the Idaho Junior Golf Association tournaments and Girls Golf of Arizona. I was a member of the Cactus Shadows High School Girl's golf team. Our team had a great season and brought home the coveted Arizona state championship trophy. I am currently scuba certified through the PADI (Professional Association of Diving Instructors). In order to scuba dive, you need a mature attitude, good judgment, and self-discipline to follow the guidelines and principles required for safe diving. I like to take on rewarding challenges that require training, planning, equipment and focus. I have worked as a tutor mentor at the Desert Foot Hills YMCA. This was such a rewarding experience that I have decided to have my own tutoring business. I have been told by my clients that I am patient, encouraging, and dedicated to their success.

My experience as a tutor will be beneficial to your child. I will help to lessen the burden that you are experiencing during this troubling time. I have done service hours with Feed My Starving Children in Mesa. This is a wonderful organization and I have enjoyed volunteering with them each and every time. It is rewarding knowing that our efforts will save lives. I have also served on the teen advisory board at the Appaloosa library. The duties include, participating in brainstorming sessions, running the Halloween Family Fun event, making encouragement cards for Valley of the Sun United Way's Weekend Hunger Backpack program, and read books to children during weekly family story time. Everything I learn in school and out of school is very important to me.

What really matters is that you understand the material and can apply it to real world situations. I have been highly successful helping my clients with organizational skills. My classmates call me frequently to answer their questions in all of the subjects. I love helping others and take great satisfaction in seeing grades improve.
